TADS®

Unifying Admissions and SIS: When your SIS and Admissions Software Work TOGETHER!

Integrating your Student Information System (SIS) with your Admissions System creates a seamless and efficient workflow that benefits both your administrative team and your students. By combining these two powerful tools, you can ensure data consistency, streamline enrollment processes, and enhance communication between departments. This synergy not only saves time and reduces errors but also provides a holistic view of each student's journey, from graduation to application, allowing for more informed decision-making and a better overall experience for your school community.

The right SIS equips you with the tools to save time, optimize your budget, and support both staff and families effectively.

Key Benefits

Seamless Integration
Tight integration between TADS and Educate allows systems to work together effortlessly.

Data Sync
Sync critical student and family data directly from TADS Enrollment into your SIS and vice versa.

Comprehensive Tools
Access all the necessary tools to connect students and families, streamlining daily operations for faculty and staff.

Effortless Transfers
Enjoy easy data transfers within Educate, saving time and ensuring accuracy.

Education Brands™

Streamline your school & connect your community

The tight integration between TADS and Educate allows these two Education Brands systems to work together to sync critical student and family data directly from TADS enrollment into your SIS and back.

We're committed to providing schools with choices. That's why Educate integrates with many of the best-in-class solutions you are already using, such as TADS Admission and Enrollment. Ensure data quality and save valuable staff time through additional integrations with Ravenna, Google Classroom, ask Timetables and USA Scheduler.

Customer support and resources

Families or school administrators can email us, call Monday-Friday, or visit our online knowledge base for help navigating the TADs system and answering various frequently asked questions.
